🌐 LinkedIn 🐙 GitHub </> LeetCode 🌐 Portfolio

Summary

Software Developer skilled in MERN stack development, RESTful API design, and AI-integrated applications. Experienced in building end-to-end web solutions with a focus on performance, scalability, and user experience. Strong problem-solving skills demonstrated through 500+ LeetCode problems and hands-on project development.

Education

Bachelor of Technology (B.Tech) – Computer Science Engineering

2023 – 2027

Jaypee University of Engineering and Technology, Guna

CGPA: 7.8 / 10

Technical Skills

Programming Languages: C++, JavaScript, Java

Frontend: React.js, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, SQL

Tools & Platforms: Git, GitHub, Postman, VS Code

Deployment: Vercel, Render, Netlify

Core CS: OOP, DBMS, Operating Systems, Computer Networks

Projects

LeetCode AI Mentor — React.js, Node.js, AI APIs

[Live Demo](#)

- Built an AI-powered coding assistant that provides hints, explanations, and solution strategies for coding interview problems.
- Integrated AI APIs to generate algorithm insights and guide users through structured problem-solving approaches.
- Designed a responsive React-based interface to improve user engagement and interactive learning.
- Deployed the application on Vercel with optimized frontend performance and scalable architecture.

Mole Identification System — Python, OpenCV, TensorFlow/Keras, NumPy

[Live Demo](#)

- Developed an AI-powered skin mole classification system using deep learning techniques.
- Applied CNN-based models for feature extraction and classification of benign and suspicious moles.
- Implemented image preprocessing using OpenCV including resizing, normalization, and noise reduction.
- Improved model performance through hyperparameter tuning and data augmentation techniques.

Expense Tracker — React.js, Node.js, Express.js, MongoDB

- Developed a full-stack expense management application for tracking income and expenses.
- Built RESTful APIs for transaction management and secure data handling.
- Designed MongoDB schemas to support efficient storage and retrieval of financial records.
- Created a responsive React-based dashboard to enhance user experience and accessibility.

Achievements & Certifications

- Solved **500+ Data Structures and Algorithms** problems on LeetCode.
- Completed **Software Engineering Job Simulation** by JPMorgan Chase & Co.
- Earned **Azure AI Fundamentals** certification from LinkedIn Learning (2026).
- Qualified Round 1 (Coding Assessment) of the **Adobe India Hackathon**.
