

ASHUTOSH SONI

Location: Gwalior, Madhya Pradesh, India

+91 6265758558 — ashutoshhh.14@gmail.com — [LinkedIn](#) — [GitHub](#) — [LeetCode](#) — [Portfolio](#)

Summary

Full Stack Developer experienced in building scalable MERN-based web applications and integrating AI-driven features. Strong problem-solving background with **400+ DSA problems solved on LeetCode**. Seeking a software development internship to contribute to real-world, production-grade systems.

Education

Bachelor of Technology (B.Tech) – Computer Science Engineering

Jaypee University of Engineering and Technology, Guna

CGPA: 8.01 / 10

Expected Graduation: 2027

Technical Skills

Languages: C++, JavaScript, Python, Java

Data Structures & Algorithms: Arrays, Strings, Linked Lists, Stacks, Queues, Hashing, Recursion, Sorting, Searching

Frontend: React, HTML, CSS, JavaScript

Backend: Node.js, Express.js, RESTful APIs

Databases: MongoDB, SQL

Web Concepts: Client-Server Architecture, MVC Pattern

Deployment: Vercel, Netlify, Render

Version Control: Git, GitHub

Core CS: OOPS, DBMS, Operating Systems, Computer Networks

Tools: Postman, VS Code, Linux

Professional Experience

Full Stack Web Developer (Projects)

2023 – Present

- Designed and deployed full-stack applications using MERN stack following client-server architecture
- Developed scalable RESTful APIs and backend services using Node.js and Express.js
- Implemented authentication systems and CRUD-based workflows
- Deployed production-ready applications using Vercel and Netlify
- Followed SDLC principles including development, testing, and debugging

Expense Tracker (MERN Stack)

- Built a full-stack financial tracking system handling 100+ user transactions
- Developed REST APIs for managing income and expense data
- Modeled MongoDB schemas for efficient data storage and retrieval
- Designed responsive React UI for improved user experience

YouTube Clone (Frontend)

- Developed a scalable React-based video interface using public APIs
- Implemented search functionality and dynamic UI rendering
- Optimized component rendering using React hooks

LeetCode AI Mentor — AI-Powered Coding Assistant

React, Node.js, AI APIs, Vercel

[Live Demo](#)

- Built an AI-powered platform that provides hints, explanations, and strategies for solving coding interview problems.
- Integrated AI models to generate algorithm insights and guide users through problem-solving approaches.
- Designed a responsive React-based interface enabling users to interactively learn DSA concepts.
- Implemented real-time AI response generation for coding assistance and interview preparation.
- Deployed the application on Vercel with optimized frontend performance and scalable architecture.

Achievements & Certifications

- Solved **450+ DSA problems** on LeetCode
- Completed **Software Engineering Job Simulation** by JPMorgan Chase & Co.
- **Azure AI Fundamentals** – LinkedIn Learning
- Qualified **Round 1 (Coding Assessment)** of Adobe India Hackathon

2026
